

Expanite speaking at the 24th IFHTSE Congress 2017

Thomas Strabo Hummelshøj, CTO at Expanite will be presenting at the 24th IFHTSE Congress 2017 which combines the European Conference on Heat Treatment & Surface Engineering with the A3TS Congress.

The congress will take place at the Palais des Congrès Acropolis- convention center in Nice, France from 26th to 29th June 2017.

The conference will be an opportunity to learn more about the recent advances, innovations and developments in the field of Heat Treatment and Surface Engineering. Join Thomas Strabo Hummelshøj for his speak about:

Application of next-generation Stainless Steel and Titanium surface hardening.
