

Purpose

The overall responsibility of the Employee is to ensure proper fulfillment of the production tasks at Expanite in Denmark, ranging from planning, processing and quality assurance of the individual customer orders. The Employee should be able to on one side to do the tasks hands-on, while on the other side manage execution of the tasks through the other team members. Eventually, the Employee shall be able to act as stand-in for the Production Lead when relevant.

Profile

We are looking for a person with technical skills. You may have a background as a skilled person, but it is not a requirement as long you like to maintain production equipment and make minor repairs. You speak danish and English in conversation level. You like to work in a small team, are flexible, enjoy, at time, a hectic day at work and are not afraid of manual work, using your hands. If you can see yourself in this description and you feel for joining a company in growth, you might be the one we are looking for.

Key Activities

Execute safe, effective, and efficient operation of the production facilities, by participating in:

Production preparation:

- 🔧 Production planning, in collaboration with Production Lead & Costumer Service
